Retirement Living Design

We understand the potential of senior living and bring a fresh approach to the development concept. We completely acknowledge the requirements for the Retirement Market. Taking time to listen and interpret your vision, selecting colour schemes to reflect this, encouraging and maintaining an on-trend approach to the project from guest suites to complete villages.

We are incredibly conscious of this huge decision & the effects it can have on people as they move into the third phase of their life. We approach every project with empathy and passion 'Getting it Right' for your client.

Creating schemes that have tactile, neutral, and natural fabrics where possible adding the occasional nod to heritage colours creating a timeless, classic and stylish exclusive club lounge feel. The finishes and textures we use are specially selected giving a contemporary edge and each area its own unique personality.
